

safestretch

enhancing site safety

safestretch

Injuries can occur suddenly or develop over a period of time. A long handle and 2000 foot roll means less injury and less operator downtime.

faster

reduces operator fatigue
easy-to-grip handle, easy roll change

greener

bulk packed, less cardboard waste
substantial reduction of packaging waste

safer

eliminates bending and twisting the back
no stretching, even for the tallest pallets

better

automatic tensioning system for consistent stretch
pallet base easy to reach, making secure loads
